

My favorite radio station is K-LOVE which I hear on my local radio station. If it were displaced by an LPFM broadcaster, I wouldn't be able to get this kind of music. K-LOVE provides the best Christian music and services I have ever heard. I believe it is in the public interest to have K-LOVE continue to provide their music and other information over the FM translators. Please don't let LPFM displace my favorite (and only source) of music.
